**Response to Office Action**

Dear Mr. Fernstrom:

I am in receipt of your Office Action, bearing mailing date of December 27, 2002, in regard to my above referenced patent application, No. 09/849,582, and I provide herewith my Response to this Office Action. Thank you for your written and verbal remarks on this Action.

To address the concerns which you raised regarding 35 U.S.C. 112 second paragraph, and in recognition of the fact that relief of the restriction requirement has not been provided, I am providing my set of revised claims limited to the elected and examined group of invention. This set of revised claims replaces my set of claims, numbered claim 4 through claim 33. I herewith cancel claims 4 through 33 without prejudice, as I intend to file divisional applications, and as I herewith enter my pending claims 34 through 49, these claiming my elected group of invention. I look forward to your examination of my new claims. Thank you.

Sincerely,

David Andrew D'Zmura  
(sole applicant, sole inventor, sole owner)
